Permit Cancellation & Refund Request Instructions

Package include the following:

- ◆ **This instruction sheet;**
- ◆ **Cancellation Form;**
- ◆ **Refund Request Form.**

Cancellation where no work has been performed:

In order to cancel a permit where the work will not take place, the following must be submitted.

- ◆ Form Letter from the contractor or permit holder requesting permit cancellation and stating that no work has been performed. If the contractor is no longer available or unwilling to submit the letter the request can be made by the property owner. If the permit is valid at the time of request for cancellation and the permit holder is not submitting the request, then the property owner will be required to complete a hold harmless letter. Please note that in cases where a hold harmless letter is required there will be a 10 working days waiting period prior to the cancellation. Additionally, the department will notify all interested parties (original permit);
- ◆ Original Validated Permit;
- ◆ Job set of plans (if applicable);
- ◆ **If the permit is expired, a fee of \$72.00 is required at the time of cancellation request.**

Following the receipt of your letter you will be contacted for scheduling of a field inspection to confirm that no work was performed. If the performance of the inspection determines that work was not performed, the permit will be cancelled. However, **if work is determined to have been performed you will be required to complete the work covered under the scope of the permit and obtain all mandatory inspections.** If the permit has expired you will be required to have it re-issued prior to proceeding with the work and obtaining the mandatory inspections. Further, the department will issue a notice of violation or ticket requiring payment of a fine and correction of the violation.

Please be advised that your request will not be accepted if any of the required documentation is missing or in cases where work has commenced as evidenced by an inspection result entered in the computer system. In these cases, the work must be completed and mandatory inspection obtained. If the permit has expired it must be reissued prior to request for mandatory inspections.

Cancellation where work has been performed:

In the unique instances where work has been removed or the work was superseded by another permit, the following must be submitted.

- ◆ A letter from the permit holder certifying that the work was removed and superseded by another permit number (provide specific permit number). The letter must include the permit number, job address and a contact name and telephone number. If the contractor is no longer available or unwilling to submit the letter, the request can be made by the property owner.
- ◆ For cases where the work has been removed, the applicant is required to submit the job copy of the plans. An inspection will be performed to verify the work has been removed. Following the performance of the inspection, if it is determined the work was removed then the permit will be cancelled. You will be required to complete the work covered under the scope of the permit prior to obtaining mandatory inspections. Further, the department will issue a notice of violation and open a case in our regulation system to ensure appropriate action is taken. Failure to do so may result in the issuance of a civil violation notice or ticket requiring payment of a fine and correction of the violation.

- ♦ In cases where a permit has been superseded by a new permit, the requesting party must submit copies of the permit and plans relating the old number and the new number. An inspection may be scheduled for further determination of the work performed. Once the department is satisfied that there is a duplicate, the permit will be cancelled.
